Subject: Kimpton tennis Court: Maintenance

Dear Bernard,

We are very happy with our tennis court, the surface of which is excellent to play on. Its drainage even under today's rainy conditions is excellent.

One of the reasons for buying it was the understanding we gained from you that it would be easier to arrange maintenance for the synthetic grass surface than for the en tout cas court that it replaced.

In that regard, we would be grateful to receive a proposal form you for regular (say quarterly) maintenance.

Kind regards

James Kimpton
