16th March 2009

Dear Bernard

On behalf of the Koonung School Community I wish to acknowledge the marvellous work your company and crew have undertaken at our school.

The completion of an International standard synthetic Hockey facility on a site which formerly housed a small grassed football oval in such a professional and no fuss manner is not to be taken for granted.

As the facilities co-ordinator and manager of the project, I can personally vouch that the work completed was done to a high standard and according to specifications.

Your willingness to provide for small variations and your thoroughness from the initial tendering process, right through to the completion of the facility has been appreciated.

Yours sincerely,

Peter Wright

Principal

Koonung Secondary College
