Dear Bernard

I write to express my sincere thanks to you and your team for what has turned out to be a most impressive synthetic installation on our Junior School Oval.

Whilst the finished product is most pleasing, I was particularly impressed with the quality of the work crew allocated to this job.

From a school's perspective, there is always an element of nervousness when construction crews take over such a large component of your grounds. My concerns were quickly allayed as I observed the terrific and unobtrusive way the various elements were undertaken and completed.

Bernard, would you please express my sentiments to your crew as I am sure, like us here, we often hear when things go wrong, but rarely when things go right! So, thank you for a job well done.

Kind regards and with my appreciation

GUY B MASON
