

To **Whom It May Concern**

Re *en tout cas synthetic*

Dear Sir/Madam,

I am writing to recommend to you the work completed at our school by *en tout cas synthetic*.

We have been very pleased with the completed works, a basketball court and large playing space, as they have provided an excellent facility for our school. The courts look terrific and we greatly appreciate the advice on colours and surfaces recommended by the company.

The courts have been in place now for over six months and we have had no problems at all which is unusual for new construction. Our students, the staff and the community love the improvement and we would have no hesitation in working with *en tout cas synthetic* in the future.

We are pleased to recommend this company to you and invite you to inspect the works if you feel this would be helpful. Or you may wish to view some of the works on the *en tout cas synthetic* website
