## Kingston Heath Soccer Complex

### F.I.F.A 2 Star

Grassports recently installed two F.I.F.A 2 star soccer fields for our good client Sports Technology International at the new Kingston Heath Soccer Complex in Cheltenham, Victoria.

LIGA TURF COOL GRASS, a new synthetic soccer grass was installed which is up to 20% cooler in hot weather.

The project encompassed significant civil works, and incorporates a 20mm rubber insitu shock pad.

The fields have been designed using the “Wembley Pattern” of grass laying to give the appearance of freshly mowed natural grass.

**This facility is the best F.I.F.A accredited Complex in Australia.**

A sporting solution to an environmental problem

# SCHOOL PROJECTS

## Catholic Regional College– Keilor

Working closely with Principal Greg Wade and Project Manager Brian Bird, we constructed the new sports complex which incorporates 4 netball/ basketball courts along with futsal soccer and modified hockey. SUPERGRASSE 25mm Multisports grass was installed as a suitable hardwearing all purpose surface. Significant ground / drainage works carried out due to the difficult soil conditions encountered in the Keilor area.

## Sacred Heart Primary School—Preston

Making the most of limited space, we have installed a SUPERGRASSE sports facility which incorporated two netball courts, one basketball court, volleyball, rounders, a cricket pitch, hopscotch and bat tennis. Mindful of the potential hardness of the multisport area, we installed rubber sheeting under the grass, providing a much softer playing surface.

## St Vincent de Paul Primary School—Strathmore

The school was so delighted with our playground area installed in 2008, that we were engaged to construct a further area, using our new product POLIGRAS ELITE, a soft twin layer 40mm grass, minimal infill. Ideal for primary school applications.

## Greenhills Primary School– Greensborough

Abstract Architecture at its best! The “greenhills” of Greenhills Primary School in Greensborough Beautiful mounded POLIGRAS Landscape grass, soft and comfortable to sit on. Visually striking , just another way we can enhance any school environment.

# SCHOOL PROJECTS

## St Anthony's Primary School – Alphington

Our love affair with St Anthony's Catholic Primary School in Alphington spans 4 years with 3 separate synthetic grass projects.

2008 we constructed a mini field with fitness track along with an extensive POLIGRAS playground area.

2010 we constructed a new basketball /netball/ volleyball court as a part of the Federal Stimulus Package.

2011 we constructed the school atrium in POLIGRAS GOLD which incorporates chess and hopscotch.

## Dandenong Education Precinct

Working for our good clients Australian Native Landscape Constructions P/L, we have recently installed two superb synthetic grass products, SUPERGRASSE multisports for the heavy wear areas and POLIGRAS GOLD in the landscape perimeter areas.

Total area of approximately 2000 square metres.

# VARIOUS PROJECTS

## Tresor Display Units- South Yarra

To assist in the selling process for a new multi million dollar high rise in South Yarra, Grassports were engaged to install our new “up market” POLIGRAS GOLD synthetic grass which is the most realistic of our range as it incorporated a lower beige (dead grass) thatch layer. Ideal for almost exact replication of natural grass.

## Kindergarten—Springvale South

Lawngress and a new sand pit were recently installed in the Little Beginnings Early Learning Centre

## Swinburne University

Our skilled technicians installed the synthetic grass landscaping for our client Synthetic Turf Products. A difficult installation completed on time and on budget.

Doesn't it look terrific!

## Melbourne Cricket Ground

Racing against the clock an urgent project required at the Melbourne Cricket Ground to complete one of their outdoor entertainment/ bar areas prior to the boxing day test. Professionally installed for our good clients, Sports Technology International.

## Lower Plenty

Batman and Buzz Lightyear enjoy their new multisport area. Even the SUPERHERO'S can't wear this out!

# PRIVATE TENNIS COURTS

With the experience of 45 plus years in business and the construction of thousands of tennis courts, private, club and institutions. It doesn't matter where it is, we can build it. Using high quality SUPERGRASSE and POLICLAY synthetic grass made in Australia. Here is a selection of courts completed recently.

# Under Construction

## Presbyterian Ladies College, Burwood

Construction has commenced at PLC in Burwood, of a new POLIGRAS hockey and tennis complex, incorporating night lighting to F.I.H specifications. The project incorporates a 360,000 litre water harvesting system. Completion expected May 2011.

### ARUNDAL SOCCER FIELD

We have commenced construction of a F.I.F.A 1 star POLIGRAS soccer field at Arundal Soccer Complex in Truganina for WATPAC constructions. Completion expected in April 2011.

ANNOUNCEMENT

### VICTORIAN EDUCATION DEPARTMENT

Grassports are pleased to announce that we have been awarded panel recognition by the Victorian Department of Education and Early Childhood Development.

This has verified our highly regarded position within the industry. Our first project will be the Bendigo S.E. Secondary College, where we will install a F.I.F.A 1 star soccer field along with substantial landscaping. Our second project will be Epping Views Primary School where large areas of synthetic turf will be installed along with a running track.

Our new Truck  
Dedicated to Service and Maintenance
