CUSTOMER SUCCESS STORY

BEVERLEY HILLS PRIMARY SCHOOL, DONCASTER EAST, VICTORIA

Multi-sport area that ticks all boxes!

Beverley Hills Primary School contacted The Victorian School Building authority to choose the best company for the works and they decided to go with Grassports to upgrade their old asphalt courts. They wanted a facility that was eye catching and provided multi-sport options to make the most of the space they had.

Grassports revitalised and rejuvenated the area with Supergrasse 19mm, a high quality and durable synthetic grass. The courts feature line markings for 2 basketball courts, 2 netball courts, 5 volleyball courts, and a rounders diamond with bases. While surrounding zones feature four-square play areas.

Beverley Hills Primary School is thrilled with the results and know it will be used for many years to come not only by themselves but the wider community. Including basketball tournaments, interschool sports competitions and senior students who participate in “hoop time” a state-wide recognised program. Working with our customers to provide customised, perfect solutions is something we take pride in at Grassports Australia.

Fun environments for active people!
