

CUSTOMER SUCCESS STORY

PRIVATE TENNIS COURT, PORTSEA, VICTORIA

Tropical Tennis Court!

The absolutely stunning home in Portsea was completed with an impressive tennis court at its entrance. The court not only looks great but plays beautifully and our new Grassports client is delighted with the outcome!

Grassports constructed the concrete slab base, then used a top of the range, 100% Australian made *SUPERGRASSE ProBounce Cool Plus* synthetic grass in Olive Green to surface the court. We then finished it with a high-quality draw curtain, including two posts, cable, and net.

Positive feedback was given regarding our quality workmanship, product range and onsite project management. We are proud to be offering a strong service and reliable construction to our customers.
