

REFRESHED COURTS FOR GOOD SHEPHERD LUTHERAN PRIMARY SCHOOL

Good Shepherd Lutheran Primary School in Croydon Hills has given their existing sports courts the full Grassports treatment.

Working with the original court foundations, our team resurfaced the worn synthetic grass using our durable Court Turf PE system.

By retaining the existing base, we were also able to create space for an additional basketball court - maximising the play area without the need for major structural works.

Designed for basketball, netball, hot shots tennis and a running track, the upgraded courts now provide a vibrant, versatile space for the whole school community.

A fresh, safe and engaging sporting area ready for students to enjoy for years to come!
